HOW TO READ THIS

- In order
- In progress, or needs attention
- Missing

Verified means Skillmatch checked the card with its issuer or against the original. Each person's page says how and when.

NOT IN THIS PACK

Right to work is your own check: each person's page lists its date, who did it, how, its reference, its end date and its evidence files, which stay in Skillmatch for the engagement plus two years. Card numbers (past the last four, on a person's page), photos, dates of birth and addresses stay with the person and the Skillmatch team. You remain responsible for induction, supervision and confirming competence on site.

Skillmatch is a product of Division 1 Systems Ltd, registered in England and Wales, company 17300786, 128 City Road, London EC1V 2NX · support@division1.systems.
This pack shows the records Skillmatch held when it was exported; check results can change after that date. It is not legal advice. Right-to-work checks shown as yours were carried out by you, and the duty to check right to work and competence stays with the engaging party.
